

In this lecture, we will discuss...

Pseudo-Class Selectors

Pseudo-Class Selector

```
selector:pseudo-class {  
    . . .  
}
```

Pseudo-Class Selector

- ✧ Many pseudo-class selectors exist
- ✧ We cover:
 - **:link**
 - **:visited**
 - **:hover**
 - **:active**
 - **:nth-child(...)**

Summary

- ✧ Pseudo-class selectors are very powerful
- ✧ Make sure your selector is still readable
 - Simple/Readable > Complicated/Tricky

NEXT:
Style Placement
